SPECIAL INFORMATION

APPLICANTS APPLYING FOR AN ISSUER IDENTIFICATION NUMBER UNDER ISO/IEC 7812

Please note each organisation is entitled to only ONE IIN. This IIN shall then be used for each card issued by your organisation. You will not be issued with subsequent numbers to differentiate between products (i.e. debit cards and credit cards) or geographic regions (national or international use).

In assigning an IIN, Pay.UK Limited is acting as agent for BSI (British Standards Institute) and the assignment, registration or publication of an IIN is not intended to signify, and should not be taken as in any way implying, that the person to whom such a number is assigned has become or will become a member, associate member or agent of Pay.UK Limited or any of its members, associate members or any of the United Kingdom payment clearing companies which operate under its umbrella.

The assignment and issue of ISO numbers is a non-profit making service which the Pay.UK Limited carries out on behalf of BSI in the interests of international standardisation. The fee charged to those seeking a number assignment is a contribution to the administrative costs involved in carrying out this function. In the circumstances Pay.UK Limited will not be held financially liable for any errors or omissions howsoever arising, whether negligently or otherwise, in the registration, reservation or assignment of the IIN, or the publication (or omission).
